The Belle Glade Herald

Volume 4; Number 5 | Belle Glade, Palm Beach County, Florida, Friday, August 27, 1943 | Price $2.00 a Year—5c a Copy

News From Your TOWN HALL

Commissioner Risk is the only candidate for Commissioner who is unopposed. This must indicate that the handling of Belle Glade's water business is satisfactory, or to the degree that no one wants to risk a fight or fight a Risk about it.

—o—

Lonnie Warren, long time presser of trousers and only laundryman in the Glades has offered himself for the consideration of his fellow voters. He "wants an opportunity to do something for his community" and has chosen this mehod.

Hugh Bratley must feel that his former experience on the Town Commission fits him for the position of Chairman of the five who will sit when the voting is over. He is running on his past service record.

Bratley and Lonnie will fight it out in Group 1.

—o—

Group Two seems to offer the best opportunity for some real interesting good old South Carolina campaigning and politics.

C. A. Bailey, President of the Chamber of Commerce and real estate broker, thinks that he "could accomplish something, and especially some of the things I have been working on if I were a member of the Town Commission." He is offering a concrete platform for his "forward Belle Glade" idea and promises more for each of the two weeks before election.

Chief N. D. Lloyd, as a substantial property owner and several years experience in Town affairs, offers his services based on his record.

Chairman J. K. Baker believes his record as Commissioner and as Chairman of the Commission entitles him to another round.

The two in this Group who are now serving the voters haven't always seen eye to eye which furnishes a basis of difference of opinions, which in turn is an excuse for political races.

Rumblings indicate that a campaign with possibilities of entertainment and education acceptable at this time of year may be in the making in this group.

If Lloyd and Baker get to discussing each other's political virtues enthusiastically Bailey might pick off the voters from the outside; or if interest gets going good depend on Bailey to start a counter attraction, vocally, planningly or promisingly.

—o—

Anyhow, who's running for Mayor?

Rodeo At Okeechobee Labor Day Holidays

Following on the heels of a successful showing of the Florida cowboy Rodeo at Arcadia on July 4 and 5, Billy Keen and Oscar Clemons have announced plans for a Labor Day Rodeo with horse racing at Okeechobee three days, September 4, 5 and 6.

The Okeechobee airport is to be the scene of the meet which will be held at 3 p. m. daily, according to the management. Clemons, who is "all Florida champion calf roper" will serve as arena director and will furnish the livestock for the show.

Keen, who has appeared in Madison Square Garden five years and was a ten week feature at the New York Fair, will produce the show. Sponsors of the show are the Okeechobee Civic Club, headed by Mayor Raulerson and Zibe Williams. Ruth Keen is official rodeo announcer and is handling publicity.

Among special feature acts being planned for the Labor Day event are Cowboy Jack Andrews, bull whip artist, and his trained Brahama steer "Henry"; the quadrille team of the Silver Spurs of Kissimmee; Alec and his trained mule; and Keens famous romanriding standing jumping act over an automobile.

Nell Lingle's trick riding and Ralph Clark's trick riding and roping will also be included in the program.

A show of quarter horses will feature "Big Chief," only copper bottom stallion in the country.

Arena events will include bull riding, calf roping, bronc riding and bulldogging. Contests will be open to all, prize money will be $15, $10 and $5 with entrance fees added to finals.

Lt. George Carmen, U. S. Army Air Forces, Orlando, a world champion cowboy from Cody, Wyoming, is expected to participate in the events

The management announces horse racing will follow immediately after each rodeo perform-

Vegetable Seed Prices To Be Controlled—Ha Ha

Inflated prices on cabbage seed will be rolled back this week under an OPA order—the first price ceiling on vegetable seed of any kind. The regulation freezes the pricee of each seller at the highest price he charged for cabbage seed during the period of Feb. 15th to May 16th 1943. This period was chosen by the OPAers because a nationwide check disclosed prices during that time were generally fair. (Ed. Note: Ha Ha.)

Gene McWhorter, local board clerk, remined holders of C gasoline books that the deadline for the third tire inspection is Aug. 31st. A book holders have until September 3th and B ration holders must have had their third inspection by Oct. 31st.

The local bord also reminds shoe retailers that the following notice must be posted at all places where shoes are retailed to the public: "Rationing regulations prohibit this store from accepting loose war ration stamps for shoes selected or delivered at the store."

The posting of this will emphasize the fact that loose coupons are valid for shoes only with bona fide mail orders

Cadet Nurse Corps Seeks 65,000 New Student Nurses Now

The U. S. Cadet Nurse Corps, recently authorized by the Bolton Act, is seeking a quota of 65,000 new student nurses this year. Corp members will attend any of the existing 1300 accredited nursing schools that meet requirements of the law. Courses are accelerated from the usual 36 months to 24 to 30 months.

Depending upon their rank, student nurses will be paid maintenance and monthly allowances of from $15 to $30 by the school of nursing or hospital. The

Members of the U. S. Cadet Nurse Corps will wear the U. S. Public Health Service cap device on their "Montgomery berets", which are a part of the Cadet Corps uniforms.

schools, in turn, are reimbursed by the U. S. Public Health Service, Federal Security Agency, which has been designated to administer the Bolton Act.

Upon graduation, students in the Corps may become registered nurses through the usual procedure required by the schools for graduation and after passing state board nurse examinations.

The insignia of the new U. S. Cadet Nurse Corps, U. S. Public Health Service. It will be worn on the upper left sleeve of the Cadet Corps Uniform.

In return for benefits received, members agree that, health permitting, they will remain in essential nursing service for the duration of the war, either civilian or military. They are not required to pledge themselves to military service only.

Marriage is not prohibited, and an increasing number of nursing schools are admitting married students. Married nurses are also accepted by the Army Nurse Corps.

Missing In Action Message Received First Time Here

Frank H. Hollingsworth Reported Missing After Receiving Decoration

The first of what most likely will be a long list of casualties for this area came like a bomb from an invisible enemy plane Tuesday to a local family.

T/Sgt. Frank H. Hollingsworth was recently decorated in England for outstanding service in a Fortress. The first notice his parents had received was in a morning paper Tuesday.

Later in the day they received that fateful telegram from the War Department announcing that their son was missing in action over Germany from a Flying Fortress on August 12th.

With American ingenuity, unexcelled equipment, triple-ribbed doubly reinforced backbone—sometimes known as guts—of these Flying Fortress crews, the chances are ten to one that Sergeant Hollingsworth's crew are prisoners of war somewhere in Germany.

It might be in order to check your war effort to see just what you are doing to speed the return of Sergeant Hollingsworth and to back up his actions FOR YOU.

Awarded Air Medal

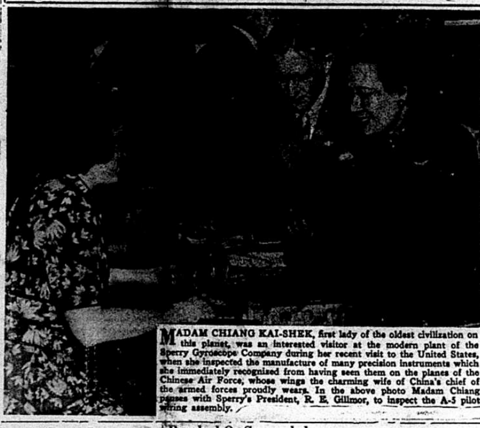

Technical Sergeant Frank H. Hollingsworth, 22, a radio operator on a Flying Fortress, was recently awarded the Air Medal in recognition of his completion of five successful missions over enemy territory. The presentation was made at a bomber base in England by his commanding officer, Colonel Budd J. Peaslee, of Santa Cruz, Calif. Sergeant Hollingsworth is the son of Mr. and Mrs. F. E. Hollingsworth.

DEFENSE FORCE TO BE FORMED

The Defense Force formed by members of the Rifle Club is to be completed Friday Nite at 8:30 at a called meeting. Be sure to be there.

The range is being built and rifles and ammunition are available.

Madam Chiang Inspects Instruments for Airmen

MADAM CHIANG KAI-SHEK, first lady of the oldest civilization on this planet, was an interested visitor at the modern plant of the Sperry Gyroscope Company during her recent visit to the United States, when she inspected the manufacture of many precision instruments which she immediately recognized from having seen them on the planes of the Chinese Air Force, whose wings the charming wife of China's chief of the armed forces proudly wears. In the above photo Madam Chiang pauses with Sperry's President, R. E. Gillmor, to inspect the A-5 pilot wiring assembly.

Lieut. Bert Lapp Visiting The Glades As Army Recruiter

"The difficult we do immediately, the impossible requires a little longer," is the motto of a bunch of streamlined hell-raising Engineers of the U. S. Army.

Among them are the Amphibian Engineers, the army counterpart of the Marines, who were the first to land on the shores of Africa as well as in Sicily.

Engineer construction brigades built the impossible, the 1600 mile military highway in Alaska completing the job four months ahead of the one year scheduled which was classed as impossible by experts.

Scratch any Army Engineer and you may find almost anything—foremen sergeants, construction equipment sergeants, mechanic sergeants, carpenter sergeants, welder sergeants, machinist sergeants, driller sergeants, bridge builders, roadmakers, trench diggers, airport builders, map makers, drinking water experts, timber cutters, river ferrymen, flame throwers and explosive men.

You can now interview a recruiting man and he will determine what school you should be sent to and what branch you will enter and then apply to your local selective service Board and you will be sent, if you are 1-A, or can be made 1-A.

Lieut. Henry LaBerte Lapp, known locally as Bert, former Florida Power & Light Manager at Pahokee will be in the Glades Friday on a recruiting tour for the Engineers. He will talk to the Rotary Club and will interview applicants either before or after the Rotary meeting.

If you would like to follow your own trade in the Army Uniform and still be a fighter, come to see Bert Friday. The Engineers fight and work. You may have to fight to get to your work.

Revoked Or Suspended Drivers Licenses In Hands Of Judges

When county judges begin issuing 1943-44 driver's licenses about the end of this month they will have before them a record of all licenses revoked or suspended during the past year.

The State Highway Patrol compiled the list of about 2,500 names, showing the charge against the person involved, the court in which he was convicted, the date his license was revoked or suspended, and his license number.

The list also was furnished to law enforcement officers Mr. J. J. Gillian, Director of the Department of Public Safety, explained.

Director Gillian reported the patrol's two-way radio system now is in operation, with seven control stations and 40 patrol cars equipped with two-way communications. Stations are at Chipley, Tallahassee, Lake City,

(Continued on page 4)

Drivers Licenses Now Available At Harris Insurance Co.

Sergeant Britt of the Florida State Highway Patrol brought the 1944 drivers license blanks to Belle Glade Wednesday where they will be on sale at the Harris Insurance Agency, Herald Building, beginning Thursday the 26th.

Patrolman Bill Drowne will give tests each morning for one hour, beginning at nine thirty, during the rush and those who must take the test must report at that time.

Mrs. Junius Harris requests that local persons apply for licenses early as with Junius away in uniform she has no help and cannot take care of an unusual rush. She must also take a little time out to take care of her own business.

Third Of Million Assessment For The Town Of South Bay

The newest incorporated Town in the Glades—South Bay—through its Council has announced its current tax roll, which amounts to $338,672.00 with a millage of five.

Of this amount $58,759 is for personal property leaving $279,913 for real property. From this real property comes homestead exemptions of $25,900 by 22 citizens, which leaves $254,013.

With the five mills a 100 per cent collection will give the Town $1,563.86 in taxes.

The Town was incorporated in July 1941 with A. O. Walker as Mayor and Frank Willits as Chairman of the Council.

Upon the death of Mr. Walker, Billy Jeffries was elected Mayor.

A. B. Barnes, O. P. Register, W. G. Bowen and S. J. Fisher make up the council along with the Chairman.

In the last election South Bay had 138 registered voters.

Mayor Jeffries reports that housing shortage in his area is as acute as that in Belle Glade—no vacancies and people are clamoring for houses and apartments.

Current Expenses Less This Year For S.F.C.D.

Stringency of available labor, as well as the lack of rain has saved the South Florida Conservancy District considerable money this season.

For the nine month period just ending only $4,405 has been spent on the pumps, whereas for the same period last year $20,103 had been spent. For maintenance last year $15,814 was spent against $4,194 this year.

The County Tax Assessor and Collector gets fourteen cents per acre annually for their work on the taxes.

SERVICE MEN who FIGHT and WRITE

S|SGT. W. H. WILLITS

After receiving his training at Keeslar Field, Miss., and Colorado Springs, Staff Sergeant W. H. Willits was sent to England where he is now serving. He is the son of Mr. and Mrs. H. C. Willits of South Bay.

LT. M. L. ALSPAUGH, JR.

Lieutenant Alspaugh has just been transferred from Gowen Field, Boise, Idaho to the Moses Lake Army Air Base, Washington He is now a pilot of a heavy bombardment plane.

CPL. EUGENE HATCHER

Charles Eugene Hatcher, son of Mrs. Louis Solmonte, has just been promoted to the rank of Corporal after being in the service six weeks. He has just recently been transferred to the East Oregon College of Education at La Granda, Oregon to begin his flight training. Corporal Hatcher was formerly stationed at Keeslar Field, Miss.

PVT. ROBERT THOMAS

Private Thomas has recently been transferred from Fort Sill, Oklahoma to Camp Roberts, California. He is in the field artillery and writes that his outfit is really living an out door life now, as they have been on maneuvers for some time.

PVT JIMMIE BOREN

Private Boren has just returned to Camp Lee, Virginia after spending an eight day furlough here with his family and relatives. He has just completed an extensive training course in a quartermaster division and his present duties consist of upkeeping motors.

A|C ALBERT H. LANE

Aviation Cadet Albert H. Lane, son of Mr. and Mrs. Roy M. Lane, recently reported to Greenwood Army Air Field as a student in basic flight training. Before this transfer he was stationed at Nashville, Tenn.

A|C ROBT. CREECH, JR.

"Have been a long time writing but the Army has a way of occupying its children pretty constantly.

"I have been here in Avon Park taking primary flight training for about five weeks now. Should be here another month if the check-rider has no original ideas of his own as to the qualities of my bird like my abilities. Confidentially, as a pilot I give rise to a very indelicate aroma, but have been pretty successful in keeping the proverbial wool over my instructor's eyes.

"I soloed last week and after having a terrible time fighting off a series of ground loops upon landing, discovered one tire flat. Brrr. Then next morning on my first hop caught the slip stream from the ship ahead on my right wing and almost passed into a spin. Pulled her out at 150 feet, Mother Earth didn't look good at all during those few moments. All in all though these stearmans are very safe and a dependable ship. They keep you on your toes but only fool judgement or carelessness could cause you any danger

"Have been to Fort Myers Beach two Sundays to visit the folks, no need to add that a fine time was had by all.

"Still have a hard time combating the thought that its pretty foolish to be flying instead of refracting, but there seems to be very little I can do about it. Try to keep it from affecting my flying but does creep up once in a while.

School Opens Tuesday September 7th. For Registration of Pupils

RATION DATES

Sugar

Stamp 14 good for five pounds through October

Stamps 15 and 16 good for five pounds for home canning.

Coffee

Ration stamps no longer required.

Gasoline

A—coupon 6 good for three gallons.

Shoes

Stamp 18 good for one pair until Oct. 31.

Red Coupons

P, Q and R valid through T and U now valid, expire August 31; V is valid August 8, expires 31; W is valid on August 15, expires Aug. 31.

Blue Coupons

T, U, V, and W valid through August 31; X valid through October 2. Y becomes valid August 29, Z becomes valid September 5 and both remain valid through 2.

Blue Coupons

R, S. and T remain valid through September 20. U, V, and W become valid September 1 and remain valid thru October 20.

TEST WELL ON KRAEMER ISLAND

John C. Stephens of Fort Lauderdale of the Soil Conservancy Department of the U. S. Department of Agriculture and M. D. Hoy of the U. S. Geological Survey are dropping a test well on Kraemer Island, one of a series of well in the Glades being sunk for the purpose of testing the underground water at various depths.

Aerial surveys have been made of the entire district, followed by soil tests all over the area. The water test wells will show the character of the water in relation to the soil and the results of the survey will enable the department to advise growers as to proper depth to secure best water for irrigation purposes in all parts of the Glades.

This well on Kreamer Island will be permanently cased and left with a guage which will be read at intervals to test the seepage from Lake Okeechobee. They stated that grower is setting up an individual pumping plant on his tract should be careful to avoid breaking the top layer of rock beneath the muck as by so doing the seepage becomes greater and the pumping load to drain the land is much heavier.

Uncle Samuel Wants That Income Tax He Needs It

Your Uncle Samuel wants your income tax—he wants it now instead of by next March. He needs it to buy planes, guns, tanks and ammunition.

In order to get you on a "pay-as-you-go" basis you must file an estimated tax report on or before September 15th.

You can deduct whatever Victory Tax has been or is to be deducted from your pay envelope, plus whatever monies you have paid on your 1942 tax and then send Uncle half of the balance.

If the smaller—1942 or 1943 taxes—is less than $50 you need not pay—you're forgiven. If the amount is between $50 and $66.67, $50 of this is forgiven; if the amount is over $66.67, three fourths will be forgiven and you pay the difference either in full on March 15th, 1944, or onehalf on that date and onehalf on March 15, 1945.

If you are a farmer you don't have to file until December 15th and you may file a supplementary declaration on that date if you are not a farmer

Get the old records out and get busy, or dump them in the lap of a tax expert, and pay him to do your worrying.

Mr. and Mrs. Otis McWhorter and Mr. and Mrs. Ernest VanLandingham have returned from Hendersonville, N. C. where they spent three weeks.

Lack of Housing Still Critical in Securing and Keeping Teachers

School will open officially on Tuesday, September 7th and all students are expected to be on hand to register on that date.

The two weeks ruling concerning quarantine is not in force at present, and it is not expected to be.

Principal Hobson is still looking for a Music and Band leader and a teacher for Girls Physical Ed.

He is also looking for rooms and apartments for the incoming teachers. He reports that several have called and given information concerning available space, but there is still an acute need for housekeeping rooms, rooms with meals or part meals and rooms alone.

The scarcity of rooms and apartments, and in some cases housing for our teachers has made it extremely difficult to secure a number of evry efficient teachers.

The natural aversion of a teacher to come to a strange rural community as compared to the glamor of the east coast coupled with the necessity for them to take makeshift housing arrangements presents insurmountable barriers.

If you have or know of any available housing space you can help secure good teachers and keep what we have.

The following is a list of teachers for the coming year:

First Grade—Mrs. Elizabeth Wierengo, Miss Margaret West.

Second Grade—Miss Justine House, Miss Mary Heath.

Third Grade—Mrs. Ethylene Martin.

Fourth Grade—Miss Oreta Brinson.

Fifth Grade—Miss Leona Johnson.

Sixth Grade—Mrs. Inez Dickson.

Secretary—Miss Doreen King.

Junior High English and History—Miss Mary McDaidmont.

Junior High English and Math.—Mrs. Irene Christian.

Science—Miss Eva Bryant.

History—Miss Ellen McBride

English—Miss Reta O'Brien.

English and Spanish—Miss Kathleen Rogers.

Commercial Subjects—Mrs. Ida Hardy.

Phy. Ed.—Coach E. H. Browning.

Agriculture—Harry George.

Home Ec.—Mrs. Mae Bair.

Librarian—Miss Doris Welch.

Math.—Miss Sarah Diggs.

Camp Osceola

First and Second Grades—Mrs. Emma Greenwood.

Third and Fourth Grades—Mrs. Lucretia Simonton.

Fifth and Sixth Grades—Mrs. Dorothy Wright.

Short Wave Radio Here Will Insure Rapid Storm News

The Glades will shortly have the most complete radio information center for the gathering and dissemination of storm reports in South Florida, when the installation of a short wave sending and receiving radiophone station at Belle Glade is completed

Announcement that the ten or more trucks of the Everglades Fire Control will be equipped with two way radio-phones with a central station in the office of Chief Guy Bender at Belle Glade, was made by Mr. Bender Wednesday night at a meeting of the Disaster and Relief Committee of the Red Cross of which Mr. Bender is chairman.

The State Highway Patrol will also clear through this station. Untold advantages will accumulate to the Disaster and Relief Committee with this set up as wind direction and velocity and barometer readings can be secured every few minutes from Homestead to Vero Beach and from Okeechobee to Moore Haven on the Lake thru the Engineers radio set-up on each of the gates.

Mr. Bender called a meeting at 6:30 at Teds Restaurant for his Committee and approximately 30 persons attended.

Mr. Ernest Metcalf of West Palm Beach, County Chairman,

We failed to notice whether Vice President Wallace's new book was dedicated to anyone in the headquarters of the RFC.

Some grocers are finding that good dray horse to-
Some grocers are finding that a good dray horse tonia oranges—or blueberries.

The boys at the front don't know what we have to go through at home. A stenographer we know had to apply at five soda fountains and two ten-cent stores before she could get a package of gum.

"Don't they ever ration spinach?" innocently inquired Junior at the dinner table last night. No, Junior, there is never apparently any shortage of spinach, taxes, rush-hour crowds, cutworms, bean beetles, and Washington jobholders.

Fighting Dollars

It may be true, as someone has said, that "seldom comes a loan laughing home," but never did individuals have greater reasons for sending a loan smiling on its way than underlie the opportunity to "Back the Attack With War Bonds." Victories in North Africa, Sicily, Russia and the Pacific, developments in Italy, effective bombings in Germany, Rumania, and elsewhere on the Continent, have eased the burden in many a heart and brought that much closer the time when America's fighting lads will be setting glad faces toward home shores.

This increase in the Allied offensive tempo calls for a corresponding acceleration of every kind of home-front effort, not the least of which is the purchase of war bonds. Thus the Third War Loan campaign which is to open on September 9 aims at a national minimum goal of $15,000,000,000—the greatest financial task ever undertaken by any nation. Since commercial banks are to be excluded from purchasing the securities, the success of the drive will depend on the readiness of each individual to make every available dollar a fighting dollar.

The American public already has placed many billions in war bonds and loyally surpassed original goals in the the two previous bond campaigns. But the men in the service have not stopped with one victory, or two, or three; they continue to put forth everything they have into the onward push for total victory. September will show how the home folks are keeping pace.

Rickenbacker Knows

The Apostles, when they were working their greatest works, continued "with one accord," according to the second chapter of The Acts—that is, they were in complete agreement, of one mind, corncerning their task, and they devoted themselves to it. The result of their harmonious endeavor was a tremendous growth in Christianity and its firm establishment and the working of what the world called miracles of healing.

Capt. Eddie Rickenbacker, who knows something of the power of prayer from personal experience, says now—after returning from the European war fronts—that "only a miracle" can bring victory over Germany sooner than the Fall of 1944. But he adds:

> I have confidence in the possibility of that miracle, and the accomplishment of that miracle lies in the hearts, heads and hands of every American man, woman and child, and your faith in God.

What Captain Rickenbacker obviously means is that if every man, woman, and child in the United States will pray—in the best way he knows how—for a swift righteous outcome of the war, and will back up his prayers with practical devotion to the task on the home front, the "miracle" can be wrought.

It will not do, of course, to offer prayers for a quick victory and then take a few days off from the job at the plant to go fishing. One cannot expect an answer to his prayer if he then goes out on strike, chisels on gasoline, patronizes the black markets, fails to buy bonds, or does nothing for the war effort.

"Let thy deeds be thy prayer to God," wrote an American poet, and the Apostle James said: "Be ye doers of the word."

Casualties

A recent report of a landing of an entire division on Sicily at a cost of very few must have heartened relatives and friends of fighting men.

Such a report does not mean that the war can be fought from this point onward with little risk. It does not suggest that any relaxation of effort can be consistent with our determination to achieve victory. It does not exempt anyone from the demand that he or she be ever ready for sacrifice. But it does show that predictions of everwhelming tragedy can be as unfounded as over-confidence or complacency when righteous purposes are being served.

High officials have felt it necessary, from time to time, to warn the American public that the war is still no picnic. Particularly as military news improved it has seemed advisable to "tone down" a too airy optimism. The unity that national danger produces does not easily maintain itself when crisis seems to be passing. Therefore in the midst of news of successful operations on many fronts, warning of high casualties-to-come have, from the best of motives, frequepntly been sounded.

Men and women who are doing their utmost to win this war, however, need not accept the suggestions that large-scale tragedy is inevitable. If their own attitude toward the war is unflinching, cheerful, and actively constructive, they have a right to believe that victory can be won at smaller cost in human life than anyone now can forsee.

They even have a duty to believe this and to pray for it. Jesus linked believing and praying when he said "What things soever ye desire when ye pray, believe that ye receive them and ye shall have them." Many so prayed for the result that President Roosevelt announced in his radio address on July 28: "The meticulous care with which the operation in Sicily was planned has paid dividends. For our casualties in men, ships and material have been low—in fact, far below our estimate."

Town And Farm In Wartime

Stay off trains and inter-city busses over Labor Day week-end —this is the plea of Joseph B. Eastman, director of the Office of Defense Transportation. Mr. Eastman, in asking the public to spend Labor Day week-end at home, said that failure to follow this advice might result in travel congestion worse than that experienced over the Fourth of July week-end. Mr. Eastman pointed out that transportation equipment formerly available for holiday travel is now in troop service or used to handle the greatly expanded military and essential civilian traffic.

Jobs To Guide Father-Draft

After October 1 when drafting of fathers begins, those in non-deferable activities or occupations, regardless of their order numbers, will be the first fathers called for military service. Those who transfer to essential occupations and thus release the single men for military service help to decrease the need for drafting fathers. Generally speaking, after October 1, the occupation of an eligible registrant will determine whether he will be inducted or deferred if his number is called. However, the question of hardship to dependents must be given consideration in each case.

Mail Christmas Gifts Early

Christmas gifts to Naval and Marine personnel overseas should be sent between September 15 and November 1. This period has been designated by the Navy Department in cooperation with the Post Office Department. Parcels must not exceed five pounds in weight.

Save All Fats

With millions of pounds of waste kitchen fats still needed to meet war demands, Paul C. Cabot, Director of WPB Salvage Division, recently urged housewives to remember that even if accumulated fats become rancid, they still retain a majority of the valuable glycerine that goes into war production. Some housewives, believing that rancid fats are valueless, have not been turning them in for salvage. This has resulted in the loss of thousands of pounds of glycerine that could have been processed from these fats.

Army Salvages Fats

It is estimated that enough fats are salvaged in Army camps within the continental U. S. to make 1,500,000 pounds of dynamite each month, and still leave a residue of rendered grease from which 5,000,000 pounds of soap stock may be made.

New Gasoline Coupons

Car owners who still hold the old type "B" and "C" gasoline ration coupons books should exchange them for the new mileage ration sheets of coupons between August 23 and September 1, O PA announced recently. Old type "B" and "C" coupons become invalid September 1, and gasoline dealers cannot accept them on and after that date. The old type coupons are identified by the words "Permits delivery of one unit of gasoline." The new tpye says "Mileage Ration," plus a large "B" or "C".

Address Overseas Mail Properly

Because more than 10 per cent of the mail destined for overseas is incorrectly or insufficiently addressed, the War Department has asked that the sender be sure to give the soldier's rank, name, Army serial number, organization and Army Post number. Followink is a model address,

Pvt. John Doe, ASN 1234567890
Battery B, 227th Field Aritllery
Battalion
A.P.O. 29, c/o The Postmaster,
New York, N. Y.

The War Department also asked that family and friends of soldiers send clippings instead of periodicals whenever possible to save cargo space.

Farmers Will Need Help

Harvesting America's wartime food and fiber crops will require the employment of at least 750,000 more persons on farms by October 1. The farm labor force on August 1 was apapproximately eleven million. Throughout the country, business men, Girl Scouts, Boy Scouts, townspeople, women, and high school students have been helping farmers. To insure that there will no important crop losses because of labor shortage, farmers will need the help of many thousands of U. S. Crop Corps volunteers. The Crop Corps is established now in most agricultural counties, and civilian groups in most large cities have the machinery for enlisting volunteers. Recruitment of the workers is handled locally by the agricultural extension workers and the U. S. Employment Service. Volunteers are paid established wages.

Seed For Potatoes

To help potato growers get reliable seed for 1944 plantings, a new seed classification—War Approved Seed—has been created, the War Food Administration said secently. War Approved Seed will identify that part of the 1943 late crop that is available for seed but that has a higher tolerance of defects than Certified Seed. Price ceilings, to be announced later by OPA, will be placed on both types.

CINEMATIC CHATTER

By Malcolm Millar

A glance down this list of cinematic royalty will give you some slight idea of what scoy you have in store for you come this Saturday with the Owl show and the Sunday-Monday run, which ushers in "I Married A Witch."

Here is the cast: Frederick March, Veronica Lake, Robert Benchley, Susan Hayward, Cecil Kellaway, Elizabeth Patterson, Robert Warwick and many other noted players.

"I Married A Witch" is a howler of the first order and you will never sit through a more enjoyable picture.

For the Tuesday-Wednesday offering I don't think they could have picked a greater laugh riot than "Hi'ya Chum". The Ritz Brothers hold the spot light in this one with Jane Frazee and Robert Paige in honor places with them and featured are June Clyde, Paul Hurst, Edmund Mc Donald, Lou Lubin, Andrew Tombes and Ray Walker.

In this one the famous brothers are seen as chefs, gamblers, waiters and as entertainers and they are said to be at their funniest in this particular picture.

The program is rounded with specially selected short subjects and the current news.

For the Thursday-Friday screening comes a story of TNT handlers that should thrill any and all fans. This one stars Chester Morris and Jean Parker with Barry Sullivan, Ralph Sanford and Barbara Lynn in support. According to all available reports its t honey for action and thrills with a swell streak of comedy running throughout.

Balance of the program is made up of short subjects and the current news.

For the Saturday showing comes a real actioned Western opree under the title "Boothill Bandits" which stars the Range Busters.

LEGAL NOTICES

NOTICE OF GENERAL ELECTION

This is notice that the Town of Belle Glade, Florida, will hold a General Election on September 14, 1943, for the purpose of Electing three Commissioners each for a term of two years. Each candidate at the time he or she files as a candidate with the Town Clerk must designate which group the candidate will run in. There will be groups I, II, and III, and one person is to be chosen from each one of the groups. Any person seeking the office of Commissioner must be a freeholder and a qualified elector under the Charter and Ordinance of the Town. The Election will be held at the Town Hall and the Polls will be open on said date from eight o'clock A. M. until six o'clock P. M. The Final Date for filing for Commission will be Friday, August 20, 1943 at five o'clock P. M. and the earliest date that a candidate can file is August 5, 1943, Thursday, after eight o'clock A. M. The Clerk's Office, during regular office hours, between said dates will accept written applications from candidates, each application to be notarized:

A. L. WALLIS, as Town Clerk

Publish July 30, August 6, 13, 20, 27, September 3, 10, 1943.

IN THE MATTER OF THE ESTATE OF JEWELL ELLISON, ERMA ELLISON, JOHN ELLISON and RUTH ELLISON, minors

FIGHT AND WRITE

(Continued from page one)

"By the way do you know where Doc Beatty is located now and whether or not he is practicing refraction in the Army?

'Have missed a few issues of the Herald, hope this new address will make it possible to send the next ones to me.

"Am in bed with what the doctor calls walking pneumonia and have to get back to rest.

"Best regards to all."

REVOKED OR SUSPENDED

(Continued from page 1)

Camp Blanding, Jacksonvile, Ocala and DeLand and others are being set up at Fort Lauderdale, Fort Myers and Bartow. The state system also will be connected with police radios at Orlando, St. Petersburg, Tampa, Pensacola and Miami.

The system already has proved its effectiveness. Recently, near Lake City, patrol officers cooperated with county enforcement agencies in capturing two men wanted for murder in Louisville, Ky. Elsewhere, the radio has been used for quick distribution of information about stolen cars, or about persons fleeing from arrest for crimes.

The radio makes it possible for patrolmen in all of north Florida, for example, to be notified quickly of any crime and they can then blanket all main highways with a dragnet to capture persons wanted for committing offenses.

Gilliam explained the radio is used by patrolmen in calling for ambulances to remove injured persons to hospitals and for any other aids to the general public.

SHORT WAVE RADIO

(Continued from page 1)

was present with Mrs. Wise, Executive Secretary of the County Chapter, as was Miss Phillips, Home Service Worker and Miss Scott who is attached to the Spar Station at Palm Beach.

Dr. W. J. Buck, Vice Chairman of the South Florida Safety Committee and Joe Fredlund Housing Chairman, advocated a policy of not evacuating the Glades in case of a threatened storm, as buildings now standing make it as safe to remain here as other points in South Florida.

Mr. Bender expressed satisfaction with the organization and the apparent enthusiasm of the Committee Chairmen in following the well laid out plans for handling any emergency whether caused by storms or by enemy action.

Mr. Metcalf pointed out that the Red Cross, Civilian Defense and Welfare organizations would work cooperatively with no fear of overlapping and duplication of work, nor confusion.

The Red Cross runs the show in case of a disaster caused by Nature; the Civilian Defense runs it in case of enemy action; the place of each is clearly defined and each jumps in and helps the other in case of any disaster; then theres' a place for the Welfare too in either case.

Disaster and Relief plans by the National Red Cross were written mainly from experience in the 26 and 28 storms in Florida and perfected from experience with wind and floods and storms in other parts of the USA.

Complete satisfaction was expressed by County Chairman Metcalf with the Belle Glade organization as it is an experienced set-up.

RODEO AT OKEECHOBEE

(Continued from page one)

ance with purses to be announced A rodeo parade is set for 1 p. m. Saturday and a cowboy barn dance will be held in the Okeechobee Legion hall at 9 p. m. Saturday and Monday nights
